

Smile

Cats on Trees

I would have you in my arms
Wouldn't leave you alone
If I could go back in time
And be together this winter
If I can make only one
Only one dream come true
We would stay when it outshined
I would stay with you too

You leave a smile on my face
Don't want it to be erased
You leave a smile on my face
Don't want it to be erased
You leave a smile on my face
Don't want it to be erased
You leave a smile on my face
Don't want it to be erased

If you're getting someone calls
Let me know how you feel
If you could only forgive
The day I jumped on the train
If you could ask me once more
To stay in room sixty five
I would give anything
I would open the door

You leave a smile on my face
Don't want it to be erased
You leave a smile on my face
Don't want it to be erased
You leave a smile on my face
Don't want it to be erased
You leave a smile on my face
Don't want it to be erased

I just turned out the phone
You just left me alone
I got back off the train
To just stop [?]

You leave a smile on my face
Don't want it to be erased
You leave a smile on my face
Don't want it to be erased
You leave a smile on my face
Don't want it to be erased
You leave a smile on my face
Don't want it to be erased
