

We were told our heart is a weakness
And we fall when we hide in this lie
So much snow in the night, can you see babe?
And we howl, and we howl, and we howl
Don't you know you're a fireball in the highway
When we woke I just stuck through your eyes
So much snow in the night, can you see babe?
And we howl, and we howl, and we howl

Talk, talk, talk to me in this way
We are not the enemies
When we howl, howl, howl, howl

Tikibay waves only takes me inside
And Tikibay bathe me, keeps me alive
Tikibay waves only takes me inside
And Tikibay bathe me, keeps me alive
Tikibay waves only takes me inside
And Tikibay bathe me, keeps me alive
Tikibay waves only takes me inside
And Tikibay bathe me, keeps me alive

We were told when we fall in the darkness
We're alone if we need to rise
And I know you're a fireball in the highway
And we howl, and we howl, and we howl

Talk, talk, talk to me in this way
We are not the enemies
When we howl, howl, howl, howl

Tikibay waves only takes me inside
And Tikibay bathe me, keeps me alive
Tikibay waves only takes me inside
And Tikibay bathe me, keeps me alive
Tikibay waves only takes me inside
And Tikibay bathe me, keeps me alive
Tikibay waves only takes me inside
And Tikibay bathe me, keeps me alive

We must be loved
We must be loved

Tikibay waves only takes me inside
And Tikibay bathe me, keeps me alive
Tikibay waves only takes me inside
And Tikibay bathe me, keeps me alive
Tikibay waves only takes me inside
And Tikibay bathe me, keeps me alive
Tikibay waves only takes me inside
And Tikibay bathe me, keeps me alive
