

Took Took

Cats on Trees

Two two two two kids on the road
Two two two two kids on the road
Two two two two kids on the road
Let's get crazy one more night
We're gonna lose it...

I know a game that we all could be playing
We could drink our tears and get wild
I don't care if the music's too loud
I just want us to shine through the night
We could walk in so many places
We could talk and scream and get high
I don't care; I see the colors of sounds
Give me some love, hold me tight

Two two two two kids on the road
Two two two two kids on the road
Two two two two kids on the road
Let's get crazy one more night
We're gonna lose it

Two two two two kids on the road
Two two two two kids on the road
Two two two two kids on the road
Let's get crazy one more night
We're gonna lose it

We could live our life like a dream
Give me your hands, your shirt and get wild
I don't care if you're a boy or a girl
I just want you to stay through the night
Can be two, can be three like never before
You're my friend and I'll give you some more
We don't care, we see the colors of sounds
You're the best kind of mind

Two two two two kids on the road
Two two two two kids on the road
Two two two two kids on the road
Let's get crazy one more night
We're gonna lose it

Two two two two kids on the road
Two two two two kids on the road
Two two two two kids on the road
Let's get crazy one more night
We're gonna lose it

Two two two two kids on the road
Two two two two kids on the road
Two two two two kids on the road
Let's get crazy one more night
We're gonna lose it
