

Forever Friends

Caught In The Act

Never before did I imagine I would be without your love
Caught
still in my mind I live for hopes and dreams that I can
't In
Leave your love behind

I don't know what to say The
(to make you feel the same way)
so if we can't be lovers Act
lets be forever friends

Don't say its now or never Forever
just say that we will be together
all of our lives Friends
we will be forever
be forever friends

girl when we talk
with every word you say my troubles fade away
no what I know
that being a friend can be enough for me

I know I don't feel the same
(there are no words to change it)
but if we can't be lovers, lets be forever friends

I don't know what to say
(to make you feel the same way)
so if we can't be lovers
lets be forever friends
