

## When You Lose It All

### Caught In The Act

Something's wrong  
You're stuck, you can't go on  
It seems your luck is gone

Your life is blown  
Make or break  
It just takes one mistake  
You feel you can't escape  
You're on your own

I will tell you why  
You will get by  
And hit the sky  
And who will be there with you?  
Will stand beside you?  
When you lose it all  
And I, I stand beside you  
Yes I am with you  
When you lose it all

Rise above  
You're back, you're on the top  
Bad luck you fought it off  
You're free to fly

I will tell you why  
You will get by  
And hit the sky  
And who will be there with you?  
Will stand beside you?  
When you lose it all  
And I, I stand beside you  
Yes I am with you  
When you lose it all
