Tonight Feels Right

Cauterize

Would it be alright if I was to say to you please stay tonight
We can talk for hours underneath the moon
I'd tell you how I feel if only I could get it right

I wonder what you're dreaming of when you got that smile on you
r face
I hope that it is me 'cause lately I've been having that dream
of you

I hope this night will never end
'Cause I don't want to wake up from my dreams
I hope this night will never end, never end

Caught up in a moment and I hope it never lets me go
I feel at home
Somewhere else does not exist right now
Gotta stay awake, I need to see you sleep

I wonder what you're dreaming of when you got that smile on you
r face
I hope that it is me 'cause lately I've been having that dream
of you

I hope this night will never end
'Cause I don't want to wake up from my dreams
I hope this night will never end, never end

Please don't say you have to go (Have to go)
I need this more than you will ever know (You will ever know)
Please don't say you have to go (Have to go)
I don't wanna spend tonight alone
