Cautious Clay

Oh oh [4x]

She didn't come this far
To go elsewhere
And fuck if I care
'Cause we don't ever play fair
And I made a mess thus far
With time to spare
But fuck if they care
In a stone cold stare

And you're acting like you're not washed out
You're traveling the safe route
Your level headed as a scapegoat

3 credit cards, 2 jobs
And no health care
Fuck what they say
They living in fear
Expectations set high
The move was clear
Fuck what they say
Yeah I'm still here

Pour out a glass
One toast to all my peers
Fuck your fake friends
They just trying to make ends
Down for the cause
No time to set things clear
That's the minute I know
'Cause we in control

But you're acting like we were washed out
You're traveling the safe route
Your level headed as a scape goat

3 credit cards, 2 jobs
And no health care
Fuck what they say
They living in fear
Expectations set high
The move was clear
Fuck what they say
Yeah I'm still here

Oh oh [4x]
