Puffer

Cautious Clay

I'm puffy on the outside
On the inside I'm a slow drive
In a little boat at low tide
I know I'm taking after one side

I just wanna let that sink in

But the wit don't spit like it use to
Hurry up and wait for the sequel

Cus everyone's alone
But it's the meaning that you want

Like a flower in the sun
I just wanna grow grow grow
Broad and wide wide wide

Running from the worst side
Of my own conscience on a ride
In a little boat at low tide

I'm only looking after one side

I know if I let it sink in
I miss bad trips, stupid reviews
I miss time wasted with you too

Cus everyone's alone
But it's the meaning that you want

Like a flower in the sun
I just wanna grow grow grow
Broad and wide wide wide

Cus everyone's alone
But it's the meaning that you want

Like a flower in the sun
I just wanna grow grow grow
