

# Whoa

## Cautious Clay

I'm on my way to lose control  
Feeling kinda crowded  
All these emotions got me low  
Exactly what I wanted  
When I'm alone  
Feeling like I see everyone  
The moment I know  
Exactly what you're taking me for

But I don't wanna find my phone  
I just wanna write it down  
All these feelings that I got right now  
Whoa whoa whoa whoa  
I'm just trying to make it home  
I don't wanna think about  
All these feelings that I got right now  
Whoa whoa whoa whoa

I'm feeling fake and underwhelmed  
But the nerves will keep me grounded  
My mistakes I'll sing aloud  
Exactly how they sounded  
I'm just taking my time  
Sipping that strawberry wine  
My friends never knew  
Really what I been going through

But I don't wanna find my phone  
I just wanna write it down  
All these feelings that I got right now  
Whoa whoa whoa whoa  
I'm just trying to make it home  
I don't wanna think about  
All these feelings that I got right now  
Whoa whoa whoa whoa

I think I'm gonna take five  
Cus I don't wanna be here, no  
If I don't need to

But I don't wanna find my phone  
I just wanna write it down  
All these feelings that I got right now  
Whoa whoa whoa whoa  
I'm just trying to make it home  
I don't wanna think about  
All these feelings that I got right now  
Whoa whoa whoa whoa
