

Mittigate

Cave In

And how will denial mitigate importance to successful health?
These eyes call it pain,
watching millions of people playing dead to a crook infested in
dustry.

Body spender, legal tender.

And it's a choice to a certain degree,
to the point where I can still breathe.

No mutually exclusive relations for me.

And if you gave attention to the one
and only body that you'll ever have, how would denial mitigate?
