

Shake My Blood

Cave In

[Verse 1]

No one leave, no one leave to say goodbye
No more dreams, no more dreams waiting to die
I need, I need to shake my blood
Now it seems, now it seems no one's blood

[Chorus]

Shake my blood
I need to shake my blood

[Outro]

Shake my blood
Shake my blood in your shadow
Shake my blood
Shake my blood, I will be done
