

# Vicious Circles

Cave In

Scorched by light  
Soft laser eyes  
hang so high they blur the crystal view  
Pirouettes  
Spin effortless  
Bore a hole in the core of you  
Dead rise  
Dead rise like  
Dead rise like ascending angels  
Seamless waves  
Barbaric rips  
Answer you when you call to it  
Heavy strides  
And lengthy chords  
Ties you down and fills the hollow voids  
Now we fade  
Into the blue again  
Still invisible  
Mere mortals
