

Winter Window

Cave In

[Chorus]

Candle on the winter window
Burning today
Candle on the winter window
Freezing tomorrow
Burning today

[Verse 1]

Deadly figure, melted snow
Oh, sweet nausea, moving slow
Too little less spine, settle down
Sick bed lounging, safe and sound

[Verse 2]

Run with God through the valley
Endless fog moving madly
All her insides turn to ash
Crawl under the crown, leave a path

[Outro]

Candle on the winter window
Candle on the winter window
Candle on the winter window
