

# Baby Spoon

Cavetown

What am I gonna do with you?  
I'm broken and you're superglue  
I think I gotta marry you  
I wanna be your baby spoon

I'm so glad you quit that job  
I hate to see you torn apart  
The gain just wasn't worth the cost  
It doesn't have to be so hard

Let me in, let me know  
Let me help, let me show  
You're a light, write a note  
You'll be fine, take it slow

It doesn't have to be so hard  
Baby, take your t-shirt off  
Put your ear to my heart  
Listen to it stop and start

It doesn't have to be so hard  
Baby, take your t-shirt off  
Put your ear to my heart  
Listen to it stop and start

I'm blushing and I'm dropping sparks  
You burn your hands to pick them up  
I know that you like it hot  
I worry I'm not warm enough

Let me care, head to toe  
Special, rare, calico  
We're a pair, stereo  
Angel hair and amaretto

Honey and cinnamon  
You're the best stimulant  
Future, past, present tense  
I'll be yours 'til the end

It doesn't have to be so hard  
Baby, take your t-shirt off  
Put your ear to my heart  
Listen to it stop and start  
Listen to it stop

It doesn't have to be so hard  
Baby, take your t-shirt off  
Put your ear to my heart  
Listen to it stop and start

(Let me be your baby  
Let me be a spoon that's a baby  
Let me set a date, yeah  
Let me marry you, I know you're waiting)

(Let me be your baby

Let me be a spoon that's a baby  
Let me set a date, yeah  
Let me marry you, I know you're waiting...)

It doesn't have to be so hard  
It doesn't have to be so hard  
It doesn't have to be so hard
