

(Get a load of this monster  
He doesn't know how to communicate  
His mind is in a different place  
Will everybody please give him a little bit of space)

I haven't got a lot of friends anymore  
And my head still says I have none at all

But I don't mind if I'm a little bit alone  
As long as I've got things to call my own  
And I don't mind if you find someone better than me  
Cause I just need you to be as happy as you can be

And now I'm shaking too much

Get a load of this man without a plan  
He doesn't wanna go to school but doesn't wanna upset his dad j  
ust  
Get out of bed, it's not that easy  
When your throat goes cold and your arms feel queasy  
Been in this state for one too many days  
And everyone I love is so many miles away  
Snap out of this  
Cause you're so much better than this, boy

And now I'm shaking too much  
Of course I'm shaking too much
