

I'm on the edge of the sunset
The soft of your brow
Rolling around like a piglet
Lay down like a cow
I wanna tell you a secret
Just hear me out
I only hope you'll still love me
When you find out

I'm your frog
Kiss me better all night long

I'm gonna tell you you're pretty
'Til it makes you sick
Floating out of the city
When the tide comes in
There's a curse that I'm under
I'll teach you how to swim
Two amphibian lovers

I'm your frog
Kiss me better all night
Yeah, I'm your frog
Kiss me better all night long
I feel wrong
My head's gone funny, princess
But I'm your frog
Kiss me better all night long
