

# It's All Good

Cavetown

I'm not really sure how this pans out in the real world  
But in my head, everything's going perfectly  
And even though I'm not quite sure how, you've taught me to love the world  
And be daring, and now life's exciting  
But I am so confused, one day I'll be solidly loving you  
And then the next I'm not sure you even care for me at all

It's something I can't see, how on earth could a galaxy  
Like you think anything of a tiny star like me

But in the end I don't really care what you think  
Cause the bottom line is you make me happier than I've ever been  
Oh I've ever been  
And after all why would you do all the nice things that you do  
If you didn't really mean them from the bottom of your heart  
So it's all good, yeah it's all good

Is there any way I can help you out, cause I can't think of a way  
To repay you for all the good you've done for me  
I'll write you a song or we can just hang out  
I'll hold your hand or tell you the joke that always gets you laughing  
And when I see you smile, everything becomes worthwhile  
And I forget about my worries, yeah, they just fade into the blue

But something I can't see, how on earth could a galaxy  
Like you think anything of a tiny star like me

But in the end I don't really care what you think  
Cause the bottom line is you make me happier than I've ever been  
Oh I've ever been  
And after all why would you do all the nice things that you do  
If you didn't really mean them from the bottom of your heart  
So it's all good, yeah it's all good

I think you're my best friend...

But in the end I don't really care what you think  
Cause the bottom line is you make me happier than I've ever been  
Oh I've ever been  
And after all why would you do all the nice things that you do  
If you didn't really mean them from the bottom of your heart

So it's all good, yeah it's all good
