

My baby settles down on me  
Guess I'm not moving 'til she decides to leave

I hope she never goes  
I hope she never goes

My baby settles down to sleep  
It's a full-  
time job drifting off in the drawer of extra bedsheets

She doesn't even know  
She doesn't even know

I do it for Juno  
Pretend her life is on the line  
Manipulate myself into staying alive  
For Juno  
Struggle up off of the ground  
It's easier to care for her  
But I can't if I'm not around

I let her sleep in the sun  
I let her sleep in the sun  
I let her sleep in the sun  
I let her sleep in the sun  
She's never done nothing wrong  
She's never done nothing wrong  
She's never done nothing wrong  
She's never done nothing wrong

I do it for Juno  
Pretend her life is on the line  
Manipulate myself into staying alive  
For Juno  
Struggle up off of the ground  
It's easier to care for her  
But I can't if I'm not around
