

Micah

Cavetown

I'm on the outside
Been taking the world for a test drive
It's finally worth all the shit, I put myself in
I did it so that you don't try
I hid it just to know what it feels like

Ah, ah, ah
Ah, ah, ah

I wanna know ya
Show you the ropes, fill your head up
I've never been somebody's brother, and I'm from another world
But it's kinda the same when you look at it
Like it's just the set for a game like a little kid

Living for the first time again
Zoomer baby bug on a train
Micah, don't you push me away
Don't you push me away, don't you push me away

Ah, ah, ah
Ah, ah, ah

Don't keep it a secret
I'll never tell you that it's just in your head
'Cause that's where you live
And that's how it is
But you're just a kid who doesn't know how to feel it
Been getting me back
So I've got your back

Micah's got my heart in a frame
I can't wait to tell her my name
Micah, don't you push me away
Don't you push me away, don't you push me away
Micah, don't you push me away
Micah, don't you push me away
Micah, don't you push me away
Don't you push me away, don't you push me away
Micah, don't you push me away
