

Rainbow Gal

Cavetown

Missing in the moment
'Cause I'm in a corner shutting down
Pixelated, frozen
And suddenly I'm

8-bit, crushed, digital, monotone
But there's your face on my phone
And suddenly I'm

Safe and sound
All I see is red, blue, brown
By favorite color's you right now
You're my pretty rainbow gal
Without you there's nothing

Without you there's nothing else
Without you I'm not myself
Without you there's nothing else
Without you there's nothing

I really wish I get through
You silly fish I love you
I really think I get you
More than anybody else can, so true

(I really wish I get through) 8-bit, crushed, digital
(You silly fish I love you) Monotone
(I really think I get you) But there's your face on my phone
And suddenly I'm

Safe and sound
All I see is red, blue, brown
By favorite color's you right now
You're my pretty rainbow gal
Without you there's nothing

I really wish I get through
You silly fish I love you
I really think I get you
More than anybody else can, so true
I really wish I get through
You silly fish I love you
I really think I get you
More than anybody else can, so true

Safe (I really wish I) and (get through) sound (You silly fish, I)
All I see is (love you)
Red, (I really think I) blue, (get you) brown (more than anybody else can, so true)
By favorite color's you (I really wish I) right (get through) now (You silly fish, I)
You're my (love you) pretty rain- (I really think I) -bow (get you) gal
Without you there's nothing
