Cavetown

It's just what you do when you're in love
It's just what you do when you're in love

Of course I'll be your alibi
Your first defense, your butterfly
Your memory foam, your rolling eyes
Companion of your wandering mind
Kiss me once and all the time
You're all I want for all my life
Tell me what you're blinded by
I wanna know the things you'd rather

Skip

Light on my toes right now because of this
Pretty girl I know, put flowers on my wrist
And she's wearing my clothes, I think she's really it
And I'm keeping her close, she makes me wanna
Skip
