

Treats

Cavetown

I never had a puppy of my own
'Cuz my mom is allergic to their fleas
If I could give a few a home
I'd give them everything they need
I'd give them everything they need

If I got rich one day
I'd spend all my money on my dogs
So many games for them to play
So many treats for them to gnaw on
I'd give them everything they need

We just get along so well
And I don't care if they smell

I'll give them some treats
"Roll over boy"
Every dog that I meet
Is my best friend in the world

I'll hold his little face in my hands
And tell him that I love him 'til the end
You're gonna go to heaven my little friend

I walk along the street
Dogs pulling at their leash
I'd pet you if I could
But your human gave me a bad look
I'd do anything for you little dog!

If you wanted my life savings
I'd hand them over without hesitating

I'll give them some treats
"Roll over boy"
Every dog that I meet
Is my best friend in the world

I'll hold his little face in my hands
And tell him that I'll love him 'til the end
You're gonna go to heaven my little friend
