

Vacation With The Ghosts

Cavetown

Running out of time
The train is passing by
You missed your ride
Don't you wonder why this happens to you every single time?

Check your watch, you're gonna be late
This is an important day so I'll get out of your way and leave
you with your sketchbook this is gonna be great
Be careful dear, don't need a map
'Cause boy, you'll know when you've joined the ghosts

This coat won't last forever
Build a wall around my brain and
Cover my bones with ice and snow, leave me to crystallize

Time goes on, little angel
Time goes on, little angel
Time goes on, little angel
Time goes on, little angel

Time goes on, little angel
Time goes on, little angel
Time goes on, little angel
Time goes on, little angel
