

Lead On

Cavo

The lines are drawn, the wheels are slow
Holding on and letting go
No one here will make it out alive
It's the need to feel, to lose control
Holding in the chemicals
Stole the weight in darkness from the light
It's the lie

Should've been enough to notice
Should've been enough to call you
Down the road that leads to light
Stars we only see at night
I won't let this go, I won't let this go, so lead on

The lines the fade and fall away
Change the way we stay awake
No one cared enough to stay behind
The lines are gone, the wheels are slow
Breathing in the chemicals
Everything is fading from your life
Cause it's a lie

Should've been enough to notice
Should've been enough to call you
Down the road that leads to light
Stars we only see at night
I won't let this go, I won't let this go, so lead on

Should've been enough to notice
Should've been enough to call you
Down the road that leads to light
Stars we only see at night
Should've been enough to notice
Should've been enough to call you
Down the road that leads to light
Stars we only see at night
I won't let this go, I won't let this go, so lead on
I won't let this go, I won't let this go, so lead on
