

# She Don't Care

Cavo

I like the way you reach across me now  
I like the way you throw your hair  
I like the way you smile from both sides now  
But I think I'll take it from here  
And If you left me when it's all going wrong

Then it's time to take control  
You should have left me rolling  
Could have let me go  
It's been a long way down on the wrong side for it  
But she don't care  
She don't care  
Left me rolling  
Could have let me go  
It's been a long way down on the wrong side for it  
She don't care  
She don't care

I loved the way you stayed by all your fears  
And I loved the way you hold me near  
I feel these shadows move across these walls  
Cause I feel you take it somewhere  
And If you left me when it's all going wrong  
I let the silence take control  
You should have left me rolling  
Could have let me go  
It's been a long way down on the wrong side for it  
But she don't care  
She don't care  
Left me rolling  
Could have let me go  
It's been a long way down on the wrong side for it  
She don't care  
She don't care

You should have left me rolling  
You should have let me go  
Been a long way down on the wrong side for it  
She don't care  
She don't care

Left me rolling  
Could have let me go  
It's been a long way down on the wrong side for it  
She don't care  
She don't care

She don't care  
She don't care

Been a long way down on the wrong side for it  
She don't care  
She don't care
