

We Were Wrong

Cavo

Every day's the same
And I'm the one to blame
For how it all went wrong
I guess we stayed too long
I can't believe
There's no choice but to leave

Cause it's always the same time, the same game
The things we wished would never change
All we ever wanted was a lie

Know that we were wrong
Know that we belong
Know that we were strong
Call it what you want, don't leave me out on my own

The same mistakes were made
Another masquerade
To hide the pain
The reasons never change
To you it's all the same

Cause it's always the same time, the same name
The things we wished would never change
All we ever wanted was a lie

Know that we were wrong
Know that we belong
Know that we were strong
Call it what you want, don't leave me out on my own
Know that we were wrong
Know that we belong
Know that we were strong
Call it what you want, don't leave me out on my own
My own

The reasons never change
To you it's all the same

Cause it's always the same time, the same name
The things we wished would never change
All we ever wanted was a lie

Know that we were wrong
Know that we belong
Know that we were strong
Call it what you want, don't leave me out on my own
Know that we were wrong
Know that we belong
Call it what you want, don't leave me out on my own
My own
Know that we were wrong
Know that we belong
