

What Does It Feel Like

Cavo

Wantin' to hide
Just a place you can run to
Savin' a life
After all that you've been through
But they take what they want
'Cause they know what you hide
Tell me you realize
Changin' their lives
You across like it's nothin' new

What does it feel like,
Holdin' it all inside?
What does it feel like,
Leavin' the world tonight?
Feels like I'm leavin' a love

You're the last one alive
And you know that it's never gonna change
They know what it's like
'Cause it's always been the same

Well the words never change
And the voice never fade
Tell me it's too late
Changin' your mind
There's a chance that it won't fade away

What does it feel like,
Holdin' it all inside?
What does it feel like,
Leavin' the world tonight?
We're the worst ones now
And there's nothin' left to do
All that you've been through
What does it feel like,
Holdin' it all inside?
Feels like I'm leavin' a love

The last place you feel alone
Don't let this burn too low
Don't hold your breath
The world is here and then it's gone

What does it feel like,
Holdin' it all inside?
What does it feel like,
Leavin' the world tonight?
We're the worst ones now
And there's nothin' left to do
All that you've been through
What does it feel like,
Leavin' the world tonight?
Feels like I'm leavin' a love
Leavin' a love
Leavin' a love
