

In Time

Cazette

The feeling's gonna fade in time
You'll find, find another one
And in time, you'll find
Find another one
And in time you're gonna figure shit out
Said, in time you're gonna figure it out
Yeah, in time, you'll find

But it's gon' be alright
But it's gon' be alright

You'll find, you'll find another one
In time, you'll find another one
You'll find, you'll find another one
In time, you'll find

But it's gon' be alright
In time, you'll find, find another one
And in time, you'll find
But it's gon' be alright
And in time you're gonna figure shit out
Said in time you're gonna figure it out
Yeah, in time, you'll find
But it's gon' be alright
But it's gon' be alright

You'll find, you'll find another one
In time, you'll find another one
You'll find, you'll find another one
In time, you'll find

The feeling's gonna fade
In time, you'll find, find another one
And in time you'll find
But it's gon' be alright

But it's gon' be alright
(In time you will find another one
Find another one
Another one, in time you will find another one
Find another one)
