

Not Fair

Cazette

A lot of lies
Thought all along you were the best (Na-na-na)
There was a must
It wasn't me, it's someone else (Someone else, no)

If there weren't someone else, then damn, would you have me?
If I could just go and show that I'll make you happy
Not putting off these emotions that you gave me
I can't believe you've contemplated it

It's not fair to deny me you
You, would spread me like a cross on your body
It's not fair, I rely on you
I, and now I wanted more but can't help me

It's not fair

It's not fair
It's not fair
It's not fair

You sped me off
Say it was something that I did, na-na-na, na-na-na
Don't care for love
You told me my touch was magic, so fixating

If there weren't someone else, then damn, would you have me?
If I could just go and show that I'll make you happy
Not putting off these emotions that you gave me
I can't believe you've contemplated it

It's not fair to deny me you
You, would spread me like a cross on your body
It's not fair, I rely on you
I, and now I wanted more but can't help me

It's not fair

It's not fair
It's not fair
It's not fair

It's not fair to deny me you
You spread me like a cross on your body
It's not fair, I rely on you
And now I wanted more but can't help me

It's not fair

It's not fair
It's not fair
It's not fair
You spread me like
It's not fair
It's not fair
It's not fair
