

I See Love

CeCe Peniston

Huh-huh-huh...

I have seen a love so true dwindle in a day
Lovers passing in the night with many words unsaid
Come hold me baby, take me in your arms
We can share the chills of life
Our love will keep us warm

Lovin' together, love so unreal
I'll leave you never (I'll leave you never)

I see love forever in your eyes, believe (your eyes, believe)
Two hearts found, my destiny so unreal (so unreal)
Ooh-ooh-ooh, ah-ah, ooh, ooh-ooh-ooh, yeah

I would wish upon a star
But the stars aren't high enough
To show my dreams for me and you
No, a star won't be enough
Come hold me baby
You're my fantasy come true
We can share the chills of life
Our love will keep us warm

Lovin' together, love so unreal
I'll leave you never, I know what I feel

I see love forever in your eyes, believe (I see love)
Two hearts found (I know, I know, I know), my destiny so unreal
(babe)

And if our love should ever part
The stars will all from the, hey-yeah
Ooh-ooh-ooh, yeah

Lovin' together, love so unreal
I'll leave you never, I know what I feel

I see love forever in your eyes, believe
Two hearts found (oh, I see), my destiny so unreal
I see love forever in your eyes, believe
Two hearts found, my destiny so unreal
I see love forever in your eyes, believe
Two hearts found, my destiny so unreal
