If It Should Rain

CeCe Peniston

Baby baby, I've been watching you
I never had the chance to tell you
That I love you and I need you
Right or wrong, I'm gonna keep on holdin' on
But many have tried to take you
I won't let you go, cause

I still believe that someday you'll see
I've given you everything
Given you every part of me
Hoping that somehow you'll come around
But please, don't take too long
Cause I'm finding it hard to stay strong

If it should rain for one more day
You're gonna push my love away (love love, oh yeah)
If it should rain for one more day
You're gonna push my love away (love love, oh yeah)

I've got this feelin'
There's nothing you won't do
And I'm sure you want me and
You love me and you need me too
Time goes on, we forget who's right or wrong
So baby decide, make up your mind
And I'm hoping that you know that...

I still believe that someday you'll see
I've given you everything
Given you every part of me
Hoping that somehow you'll come around
But please, don't take too long
Cause I'm finding it hard to stay strong

If it should rain for one more day
You're gonna push my love away (love love, oh yeah)
If it should rain for one more day
You're gonna push my love away (love love, oh yeah)
