

Stoopid!

CeCe Peniston

I'm so tired of being like you
I'm not gonna be a fool
You must really think that I am stupid
I'm not falling back again
No more messing with my head
You must really think that I am stupid

I keep forgetting all the little things you do
Thought that you would be the one
Falling in and out of love again
It don't even made no sense
Wonder
My friends keep telling me quit, quit up with him
Why can't you just see that it's a fool of man?
Love can be so good, you can't imagine
But I keep wasting time with you

And I'm so tired of being like you
I'm not gonna be a fool
You must really think that I am stupid
I'm not falling back again
No more messing with my head
You must really think that I am stupid

And I'm so tired of being like you
I'm not gonna be a fool
You must really think that I am stupid
I'm not falling back again
No more messing with my head
You must really think that I am stupid

Walk around without no shame
Sick and tired of all the games
me down
I'm just trying to figure it out
Got me feeling so much doubt
I'll get enough
My friends keep telling me quit up with him
Why can't you just see that it's a fool of man?
Love can be so good, you can't imagine
But I keep wasting time with you

And I'm so tired of being like you
I'm not gonna be a fool
You must really think that I am stupid
I'm not falling back again
No more messing with my head
You must really think that I am stupid

I'm so tired
And I'm so tired of being like you
I'm not gonna be a fool
You must really think that I am stupid
I'm not falling back again
No more messing with my head
You must really think that I am stupid

I keep wonder to myself
What the deal, what the hell?
What a hell I'm thinking of?
Finally I had enough
Stupid as a stupid girl
Now you know that I moved on
You're the only one who's looking stupid

And I'm so tired of being like you
I'm not gonna be a fool
You must really think that I am stupid
I'm not falling back again
No more messing with my head
You must really think that I am stupid
