

Be Still and Know

CeCe Winans

How many know He's faithful?

I have faced many mountains
Been through trials and shed many tears
When I look around and it all seems hopeless
I won't fear
I won't fear

I'll be still and know
Know You are God
You're right here with me
Through all my troubles
I'll be still and know
Know You are God
You are the light and rest for my soul
You're God, and I'll be still and know

When my heart feels anxious
It's Your voice that calms every storm
When I find myself crying all through the night
You remind me
You remind me

To be still and know
Know You are God
You're right here with me
Through all my troubles
I'll be still and know
Know You are God
You are the light and rest for my soul
You're God, and I'll be still and know

You're a well that never runs dry
No valley too deep, no mountain too high
You are my strength, and You are my guide
Lord, You're in control, so I'll be still and know
You're a well that never runs dry
No valley too deep, no mountain too high
You are my strength, and You are my guide
Lord, You're in control, so I'll

I'll be still and know
Know You are God
You're right here with me
Through all my troubles
I'll be still and know
Know You are God
You are the light and rest for my soul
You're God, and I'll be still and know

I'll be still
Oh yeah
I'll be still and know
Not gonna move
Gonna be still
Oh yeah
Be still and know
