

# It's Gonna Get Better

CeCe Winans

It's gonna get better  
It's gonna get better, better

You're feeling all alone  
Your pain is very real  
It seems to be no way out  
Just look above and deep inside  
You can survive

It's gonna get better  
Don't give up now please  
It's gonna get better  
Just stick around

Weeping may endure for a night  
But joy will come  
There's hope so will you stay  
It's gonna get better  
It's gonna get better  
Please don't throw your life away

You've worth much more than gold  
Even though you weren't told  
Each day is a gift so live  
And watch your miracles unfold  
You can survive

Things will really soon get much brighter  
The sun is going to shine again  
Hang in there and you'll be much stronger  
You will survive

It's gonna get better  
Don't give up now please  
It's gonna get better  
Just stick around

Weeping may endure for a night  
But joy will come  
There's hope so will you stay  
It's gonna get better  
It's gonna get better  
Please don't throw your life away

Love has brought you this far  
And it will lead you to that light

It's gonna get better  
Don't give up now please  
It's gonna get better  
Just stick around

Weeping may endure for a night  
But joy will come  
There's hope so will you stay  
It's gonna get better  
It's gonna get better

Please don't throw your life away
