

Lord and Friend

CeCe Winans

Come on everybody put those hands together

I'm amazed that You can be
So many things for me
Everything at the same time
The perfect one of a kind

How do You sit so high
And stay close by my side?
How do You never change
But new every morning?

King of the world
Yet lowly in heart
There till the end
You're there from the start
You are the Lion and the Lamb
Both God and man
Lord and You're my friend
Jesus
Yeah

Sun in the morning light
Protector at night
Cloud and fire
Lover and fighter
Peace and power

Over me You reign
But still You feel my pain
Man of sorrow
Joy for tomorrow
Amazing

King of the world
Yet lowly in heart
There till the end
You're there from the start
You are the Lion and the Lamb
Both God and man
Lord and You're my friend
Jesus
Jesus
