

Something's Happening!

CeCe Winans

All things have led us to this day
Creation has prepared a way
Her wait is done
The chosen one
Our King has come via the son

A roaring lion from the wild
Within a lamb tender and mild
He has arrived
He will revive
Let all who slumber come alive

Something's happening
Something in the air is happening
Something everywhere is happening
New life is happening
Something's happening
Something glorious is happening
Something more for us is happening
New life is happening

The answer to the sinners' prayer
Was sent to earth with love and care
Let every heart receive shalom
Eternal Wonder, take Your throne

Something's happening
Something in the air is happening
Something everywhere is happening
New life is happening
Something's happening
Something glorious is happening
Something more for us is happening
New life is happening

This is a monumental space in time
Don't let it slip away or pass you by
Harden not your hearts
If heaven and nature know his glory
People can't we see

Something's happening
Something heavenly is happening
Something young and free is happening
New life is happening

Something's happening
Something pivotal is happening
Something wonderful is happening
New life is happening

Oh I believe
I believe
I believe
New life is happening
Oh I believe
I believe

I believe
New life is happening

Something's happening
New life is happening
New life is happening
