What About You

CeCe Winans

Everybody's looking for a peace that flows
And everybody wants a place to go
Nobody wants to kneel and pray

So nobody receives results without faith
When someone falls along the wayside
And everybody knows why
Another heart sadly broken

Everybody needs someone to love
Everybody wants some hand to hold
Everybody needs salvation for their soul
So what about you?

Everybody wants to live life good
Does anyone live the way they should
It's never too late to turn around
'Cuz everyone lost can be found

So when you're feeling so alone
Don't think that you can't come home
And when you want to be held
My arms are open so let me know

Everybody needs someone to love
Everybody wants some hand to hold
Everybody needs salvation for their soul
So what about you?
