

Lost A Love

Cecilia Krull

What you think is complicated
Why not focus on yourself
A better life, a simple way
You only need you, don't be afraid

Everybody lost a love
I feel exactly as you are
Feeling now
So deep, so hard, don't worry
Everybody lost a love
Don't try to find the happiness
In the same place
The same place where you lost it

What you think is complicated
Why not focus on yourself
A better life, a simple way
You only need you, don't be afraid

If he is the one, he'll come back
Be sure, be patient
Be in love with you
It's the only thing that can heal you
Everybody lost a love
Don't try to find the happiness
In the same place
The same place where you lost it

What you think is complicated
Why not focus on yourself
A better life, a simple way
You only need you, don't be afraid

Now I want you so far
Please get, get away from me
Now I want you so far
Please get, get away from me

Now I want you so far
Please get, get away from me
Now I want you so far
Please get, get away from me

What you think is complicated (Now I want you so far)
(Please get, get away from me)
Why not focus on yourself (Now I want you so far)
(Please get, get away from me)
A better life, a simple way (Now I want you so far)
(Please get, get away from me)
You only need you, don't be afraid (Now I want you so far)
(Don't be afraid) (Please get, get away from me)

What you think is complicated (Now I want you so far)
(Please get, get away from me)
Why not focus on yourself (Now I want you so far) (Just focus on yourself)
(Please get, get away from me) (Oh, babe)
A better life, a simple way (Now I want you so far)

(Please get, get away from me) (A simple way)
You only need you, don't be afraid (Now I want you so far)
(Please get, get away from me)
