

# Open Door

Cecilia Krull

Let me show you something about me  
Maybe you'll see something in you

If you come, oh my love  
Please come to stay  
But if you won't  
I'll wait

When my eyes are never shut  
I see an open door  
There's something more  
There's something more

When my eyes are never shut  
I see an open door  
There's something more  
There's something more

Let me show you something about me  
Maybe you'll see something in you  
Keep me safe from something painful  
Heal me, baby, give me your love

If you come, oh my love  
Please come to stay  
But if you won't  
I'll wait

When my eyes are never shut  
I see an open door  
There's something more  
There's something more

When my eyes are never shut  
I see an open door  
There's something more  
There's something more

When my eyes are never shut  
I see an open door  
There's something more  
There's something more

When my eyes are never shut  
I see an open door  
There's something more  
There's something more

When my eyes are never shut  
I see an open door  
There's something more  
There's something more

When my eyes are never shut  
I see an open door  
There's something more  
There's something more
