

Down with the Sun

CeeLo Green

I'm getting older
There's no time to waste
Mmm... the inevitability that I must face

But before it's all said and done
And there's no where left that I can run
I'm going
Going down with the sun

I'm weary
Tired of chasing the dream
And I'm burning
Trying to blow off some steam

But before it's all said and done
And there's no where left that I can run
I'm going
Going down with the sun

I've been exiled
Another high another low
The punished still here
Our minds already gone
Calling this loneliness helps me hold

But before it's all said and done
And there's no where left that I can run
I'm going
Going down with the sun

Oh baby
Oh baby
