

Lead Me

CeeLo Green

It doesn't matter where we started
Just as long as we finish together
It's a ballad for the brokenhearted
Make you feel as light as a feather

One foot in front of the other
You always gotta take your time
You just gotta trust your lover
Everything will work out fine

Lead me, by example
Lead me, 'cause I've been goin' nowhere
Lead me, to the promise land
I'll follow you through fire
You're more than a friend

What if we just kept on walkin',
And count the cracks along the ground?
And quitting's crossed my mind quite often
But we've come too far to turn around

Baby, you don't have to worry
And darlin' you don't have to fear
If we ever feelin' worry
Love will lead us both from it

So lead me, by example
Lead me, 'cause I've been goin' nowhere
Lead me, to the promise land
I'll follow you through fire
You're more than my friend

Lead me, by example
Lead me, 'cause I've been goin' nowhere
Lead me, to the promise land
I'll follow you through fire
You're more than my friend

Doesn't matter where we started
As long as we finish together
I said, it doesn't matter where we started
As long as we finish together

Lead me, by example, darlin'
Lead me, baby I ain't goin' nowhere
Lead me, to my promise land
I'll follow you through fire
You're more than a friend

Lead me
Lead me
Lead me
Show me the way
Lead me
