

Lost Children

CeeLo Green

You don't know what I'm feeling deep inside
I tell you what you wanna hear
Doing what I can, had to fight to stay alive
The point of it was still unclear

We are, we are, we are the lost children
Where do we go?
We are, we are, we are the lost children
Hearts made of stone

Take me home
Take me home
So I'll never be alone
Take me home

Can't believe that nobody even cares
They just keep on walking by
How could you know that I swallowed all my pride?
You didn't look me in the eyes
It's getting hard to stay awake
Wanting to escape this hell
(Escape this hell)

I could blow my mind wide open
My heart's broken but it works
There's something terribly wrong with this child
'Cause even when I smile it hurts
Tomorrow come on, would you please come on?
I am barely alive
No one knows my name, here pick any vein
A fix to get through the night
And you hear me say

We are, we are, we are the lost children
Where do we go?
We are, we are, we are the lost children
Hearts made of stone

Take me home
Take me home
So I'll never be alone
Take me home

So long
Dreams I'm waiting for
So long
There's nothing in her eye

Take me home
Take me home
So I'll never be alone
Take me home

Caught on fire and I'm screaming
Is this real life or am I dreaming?
Escape this hell
Caught on fire and I'm screaming

Is this real life or am I dreaming?
Getting hard to stay awake

Take me home
