

# Music To My Soul

CeeLo Green

Welcome father  
I've seen things that you wouldn't believe  
But once your heart is there  
You can never leave  
I wrote this here for everyone to see  
It was calling me, it kept calling me

Even in darkness  
Me and my fam from the dungeon found that light  
Even in darkness  
Despite what was wrong, everything is gonna be alright

Said whoa  
When it gets real cold  
We got fire  
And that's music to my soul  
I said whoa  
When the lights get low  
We burn brighter  
And that's music to my soul  
Even in darkness

Well look at me now  
I'm everything that I wanted to be  
But once your heart is there  
You can never leave  
A star in the sky for everyone to see  
You can follow me, follow me

Even in darkness  
Me and my fam from the dungeon found that light  
Even in darkness  
Despite what was wrong, everything turned out alright

Said whoa  
When it gets real cold  
We got fire  
And that's music to my soul  
I said whoa  
When the lights get low  
We burn brighter  
And that's music to my soul  
Even in darkness

Well we got Joe and Moe  
And Dip and Low  
And yes Big Fruit  
And Big Apple  
And overload is Pat, Rico and Ray  
And we've got the witch doctor and this cool breeze  
And all the young homies from the dungeon east  
I can't forget my brothers, Big and Dre

Even in darkness  
Me and my fam from the dungeon found that light  
Even in darkness  
Despite what was wrong, everything turned out alright

Said whoa  
When it gets real cold  
We got fire  
And that's music to my soul  
I said whoa  
When the lights get low  
We burn brighter  
And that's music to my soul

Said whoa  
When it gets real cold  
We got fire  
And that's music to my soul  
I said whoa  
When the lights get low  
We burn brighter  
And that's music to my soul

I said whoa
