

## **Powers That Be**

**CeeLo Green**

It's a lie, nobody's free  
We're bound by the powers that be

Yeah you got a job that you hate  
It's functionin' on a fixed rate  
Workin' 24 hours a day only to get nowhere fast  
And all the ass kissers are passing you by

Yeah we're all doing time on planet Earth  
All the way up until that day they put you in the dirt  
But just because your money can buy you some time  
Does not mean that you do not have to die

Why?  
For now say goodbye
