Baby...
Where's the road taking us
And maybe that's why they call it making love
And darling I will do my best
I'm falling at the feet of your highness
Don't need to ask the answers always yes

Well the least I can do is try
I want you to think your satisfied
Oh let me satisfy you
The least I can do is try
I want you to think your satisfied
Oh let me satisfy you

And baby (baby)
Baby just wait and see
And maybe (maybe)
It just takes a little faith in me
A friend of mine followed my lead
He wanted to make sure that I succeed
A little encouragement is all I'll need

Well the least I can do is try
I want you to think your satisfied
Oh let me satisfy you
The least I can do is try
I want you to think your satisfied
Oh let me satisfy you

Ooh I wanna satisfy you
You, you, youuuu
I wanna satisfy you
You, youuuuu
i wanna satisfy you youu youuuuuu.....
Ooh...

Well the least I can do is try
I want you to think your satisfied
Oh let me satisfy you (let me satisfy you)
The least I can do is try (least I could do is try)
I want you to think your satisfied
Oh let me satisfy you
(let me satisfy you)

I gotta satisfy you
I wanna satisfy you baby
Ooh darling
