

# Sign of the Times

CeeLo Green

I wonder, could it be you and I are a sign of the times?  
Why can't we open our eyes to the sign of the times?

When I feel like I'm all out of love, and my time is up  
It scares me, judge us fairly  
If only music could make us understand  
I swear sometimes I hear a ghost in the radio  
I went from station to station searchin' for somewhere safe to  
go  
I'm not the only one that's seen it  
So there's no question, I believe it  
I'm not crazy  
Cause I can't move 'til it makes me  
Please try to save as many as you can

Could it be you and I are a sign of the times?  
Why can't we open our eyes to the sign of the times?

Well it's something you can't deny, go 'head and ask me why  
For the meaning, and if you think you're dreaming  
Oh I have got the perfect song for you

If I time it just right, I won't have to say it again  
Will my 2 cents be enough for you to play it again?  
I put some weight on it  
Repetition can change a human condition  
Oh you need to listen, if it's the last thing that you do

Could it be you and I are a sign of the times?  
Why can't we open our eyes to the sign of the times?

Well it's something you can't deny, go 'head and ask me why  
For the meaning, and if you think you're dreaming  
Oh I have got the perfect song for you

Could it be you and I are a sign of the times?  
Why can't we open our eyes to the sign of the times?
