

The Way

CeeLo Green

There's no civilization in sight
We're losing the light of day
Even in the darkest nights
I'm gonna find my way
Said, I'm gonna find my way

Another broken neon sign
The circling of the birds of prey
They know, it's gonna take some time
And I'm gonna my find my way
Said, I'm gonna find my way

Find my way if it takes forever
Find my way where I belong
We will make a life together
Until then nowhere is home
Until then nowhere is home

Find my way if it kills me
Til' my name is carved in stone
We will make a life together
Until then nowhere is home
Until then nowhere is home
