

# Tonight

CeeLo Green

Guiding star, shining down on me  
Destiny, it's my destiny  
To laugh and cry and live and die and pray

I've been thinking bout it lately  
Trying to find a way to live forever  
Now wouldn't that be amazing  
But don't you ever say never  
Say I wanna be wild and I wanna be free  
Knowing that nothing is promised to me  
It feels even better than your favorite sin  
To dance like somebody is watching

Tonight, I'm living the dream  
And I know what it means  
Tonight, we're dancing all over the world  
And everybody is a star  
Yes we are

Oh good lord, I'm ready  
Ready to get to move it  
I wanna do something  
Something that's worth doing  
I wanna be wild, I wanna be free  
Knowing that nothing is promised to me  
It feels even better than your favorite sin  
To dance like somebody is watching

Tonight, I'm living the dream  
And I know what it means  
Tonight, we're dancing all over the world  
And everybody is a star  
Yes we are

Why waste your time waiting on forever  
I say forever can wait  
Living the moment as long as you own it  
Forever is maybe too late

Tonight, I'm living the dream  
And I know what it means  
Tonight, we're dancing all over the world  
And everybody is a star  
Yes we are
