

Your Next Move

CeeLo Green

If one smile could erase a frown
Imagine what two can do (turn it up)
And if one voice can change a heart
Imagine what two can do (turn it up, hey)

The time is now, no time to wait
Turn up the love, turn down the hate
Turn up the love, turn down the hate (hey)
Love love sounds good, let the record play
The time is now, no need to wait
Turn up the love, speakers vibrate
So loud that we can

Make the world move (move move move...)
Come on and make the world move (move move move...)
Spinning faster, round and round
Let me hear that future sound (move move move...)

If you and I can compromise
Imagine what a few could do (turn it up, yeah)
Don't listen to their point of view
And haters ain't fooling you (turn it up, yeah)

The time is now, no time to wait
Turn up the love, turn down the hate
Turn up the love, turn down the hate
Love love sounds good, let the record play
The time is now, no need to wait
Turn up the love, speakers vibrate
So loud that we can

Make the world move (move move move...)
Come on and make the world move (move move move...)
Spinning faster, round and round
Let me hear that future sound (move move move...)
Starts with me and you
Make the world move

Just think about it, anybody
Can love somebody, oh oh oh
Cause if anybody, can love somebody
So can everybody, oh oh oh
I'ma need somebody, to help somebody
We all need somebody

The time is now, no time to wait
Turn up the love, turn down the hate
Turn up the love, turn up the love, turn up the love...
(Yeah)

Make the world move (move move move...)
Come on and make the world move (move move move...)
Spinning faster round and round
Let me hear that future sound (move move move...)
Starts with me and you
Make the world move
