

Addict

Celeste Buckingham

Got me running round wild like a addict
Got me running round uh this is madness
Losing my losing my mind losing my mind and I kinda like that

Got my head and my heart on fire
Got me thirsty feed my desire
Losing my losing my mind losing my mind and I kinda like that

This feeling's kind of confusing ain't healing
Ain't really breathing you got to be kidding
Ain't me I'm thinking of nothing but sinning got my head spun
I find myself on a mission so listen
Got a personal reason for my chaotic condition
Do you hear me
Get me to a doctor
Think I just got shot down
Ain't no goddamn way how
To get you off of my mind now
Feeling sick to my stomach got growing
Pain aches and cravings a dozen don't know what
This means but something's gotta be wrong
Something's gotta be wrong
Like what you got going on
Driving me up the wall
The irony of it all
Is I don't wanna play ball
But I'm down on the floor
And you're about to go off
Can't handle this anymore
Like you just knocked me out cold
It's peaking to soon it's going I'm getting
Tired of screaming and freaking out over nothing
I'm like a lunatic losing it got me out of my mind

Got me running round wild like a addict
Got me running round uh this is madness
Losing my losing my mind losing my mind and I kinda like that

Got my head and my heart on fire
Got me thirsty feed my desire
Losing my losing my mind losing my mind and I kinda like that

You face is making me nervous I'm anxious
Uncertain can't tell what's love and what isn't
I'm being almost obsessive I'm not about all this stressing
But I can't seem to get through this can't get my
Conscience to clear this clear my chaotic condition
Do you hear me
Get me to a doctor
Think I just got shot down
Ain't no goddamn way how
To get you off of my mind now
I'm getting all hot and bothered got growing
Pain aches and cravings a dozen don't know what
This means but something's gotta be wrong
Something's gotta be wrong
Like what you got going on

Driving me up the wall
The irony of it all
Is I don't wanna play ball
But I'm down on the floor
And you're about to go off
Can't handle this anymore
Like you just knocked me out cold
It's peaking to soon it's going I'm getting
Tired of screaming and freaking out over nothing
I'm like a lunatic losing it got me out of my mind

Got me running round wild like a addict
Got me running round uh this is madness
Losing my losing my mind losing my mind and I kinda like that

Got my head and my heart on fire
Got me thirsty feed my desire
Losing my losing my mind losing my mind and I kinda like that

I swear I'll go blind from this hunger
You trying to starve me can't take this much longer
I am the prey and you the hunter
How long do I have before I die to admit that I
Addicted to this lie

Got me running round wild like a addict
Got me running round uh this is madness
Losing my losing my mind losing my mind and I kinda like that

Got my head and my heart on fire
Got me thirsty feed my desire
Losing my losing my mind losing my mind and I kinda like that
